

SEP 05 2001

KATHY LAMB: My name's Kathy Lamb. I work for

550606

00008

17 | 1 the Commission on Economic Development.

18 | 2 At first I wasn't going to comment tonight, but  
| 3 the more I thought about it, the more I looked at some  
| 4 of the material, I'm going, they haven't addressed one  
19 | 5 of the big issues that we have in the State of Nevada,  
| 6 and that's seismic activity. Where are the statistics  
20 | 7 that's going to tell us that the next big quake that  
| 8 hits is going to keep that nuclear waste contained.

21 | 9 The other issue that I have is water. We're  
|10 all Nevadans. We all know how precious our water  
22 |11 resources are. Can they tell us for sure that there  
|12 will be no water contamination? Will Lake Mead not get  
23 |13 radioactivity?

|14 I'd just like some answers, some laymen's terms  
24 |15 answers, not doublespeak that comes out of a lot of  
|16 documents. I think that if enough of us ask these same  
25 |17 questions, they might have to take a look at the answers  
|18 that they're shoving down our throats.

26 |19 Thank you.
